

Ask Your Compounding Pharmacist

Prakash Suthar, RPh

I have chronic sinus problems. What can I do?

If you've had chronic sinus issues and commercially available over-the-counter and prescription medications have not helped, it may be time for you and your doctor to consider a prescription compounded alternative. Kare Pharmacy & Compounding can customize a nasal nebulizer or irrigation solution to include antifungals, antibacterials, steroids, antihistamines, and anesthetics in a unique preparation for your needs.

For optimal delivery of the medication, Kare is the only

pharmacy in Southside Virginia to offer the Nasoneb Nasal Nebulizer, which provides treatment for chronic sinusitis, allergic rhinitis, and nasal polyps. Using a strong air stream, the machine is specifically designed to deliver customized medications deep into the nasal cavity in a fast comfortable treatment. Each treatment only lasts 1-2 minutes and is usually done twice per day. We may

be able to bill your insurance for the cost of the medications and the machine.

Our patients have been enthusiastic about their results, Don't continue to suffer when relief is right around the corner at Kare Pharmacy & Compounding. Ask your doctor or contact us to learn more!

Do you have other difficult-to-solve medication questions that you would like our compounding pharmacist to answer?

Email pharmacist@kare-rx.com and we may feature your question!
